Sir:

Prior to considering the enclosed continuation patent application, please consider the following remarks.

REMARKS

Claims 1-37 are pending. The specification is identical to the specification of the parent application except for the addition of the cross reference to related applications and a few typo corrections in Table 3 in page 42 and Table II in page 53. No new matter is added in the continuation application.

The claims submitted herewith are supported by the parent application. In particular, new claims 1, is supported by the specification, for example, Formula (X) in page 15, lines 1-14; Formula (XI) in page 16, lines 1-13; Formula (12) in page 16; Compound (13) in page 17; Formula (XII) from page 17, line 6 to page 18, line 20; Compound (14) and Compound (15) in page 21. Claims 2-5 are supported by the specification, for example, in page 3, lines 5-17
